# Training by Industry, for Industry.

Our training program was developed through an extensive, year-long consultation and an internal pilot delivery model. We gathered feedback from past and current students, frontline staff—including Mentors and Employment Consultants from Workforce Australia Services, Disability Employment Services, ParentsNext, and Transition to Work—along with insights from team leaders, program leaders, and industry-experienced, qualified trainers.

The program is facilitated by industry and subject matter experts, supported by qualified trainers and assessors. Your team will learn from the best within the industry.

## Elective Choice

Relevant industry-specific units including Risk Management, IT Online Security and Mental Health; to suit staff from all employment programs.

Flexible elective options are available to suit your individual team, including:
